Product Type

Cellulose-Based Products

The products within this Product Type are: Includes cleaning cloths and sponges made from plant-based cellulose fibres.

This Declaration of Conformity is issued under the sole responsibility of the manufacturer. The product complies with the requirements of the following EU regulation: General Product Safety Regulation (GPSR) 2023/988

Risk Assessment

Low risk: Natural sponges are more prone to absorbing food particles and bacteria, so it's important to disinfect them regularly.

Mitigation: They can be soaked in vinegar for five minutes, then rinsed and left to dry. Alternatively, they can be washed in the washing machine or dishwasher using a hot water setting. Once sponges develop an odour or show signs of deterioration, they should be replaced.

Testing Information

No specific testing requirements. Factory making products has been certified by BSI to ISO 9001 under certificate number FS 586341.

Product Labelling

To reduce packaging, an information card is supplied with the loose products. This includes information on material, care instructions and name, postal address and email address of manufacturer.
